PROFILE

I have over 6 Months of experience working in React.js Development. I am worked Intern as a React Developer at GTyde Technologies Pvt Ltd, where I develop functionalities for web applications and building web products for clients. I'm deeply passionate about creating loved and trusted products that help people navigate their careers and achieve their career goals.

WORK EXPERIENCE

Front End Developer

GTyde Technologies Pvt Ltd 2023 – 2024 [feb] [intern]

- Develop frontend functionalities to improve responsiveness and overall performance. Integrate user-facing elements into applications .
- Test and debug programs and Improve functionality of existing systems
- Coordinate with internal teams to understand user requirements and provide technical solutions.

PROJECTS

Project 1 | E-Commerce Application

SEP -2023 | Skills : React,html , css , Javascript

- An e-commerce project is an online platform that allows customers to purchase products or services through the internet
- It is the virtual space where you showcase products, and online customers make selections. Your website acts as the product shelves, sales staff, and cash register of your online business channel.

Project 2 |Weather Application

NOV - 2023 | Skills: React, html, CSS, Bootstrap

- Weather App is the application of science and technology to predict the conditions of the atmosphere for a given location and time. It's a way of predicting things like cloud cover, rain, snow, wind speed, and temperature before they happen.
